**2009 ITSD Legislation Suggestions**

<b>Possible Legislative Issues (short title)</b>	<b>Rough estimate of cost, if any</b>	<b>Brief description of need for legislation</b>
Create statutory security program	Negotiable and base funded; risk avoidance	Highlight the importance of information security by statutorily defining a security program and requirements for agency to follow.
Stranded 9-1-1 Funds	Funding switch	Federal rules prohibit the diversion of these taxes. 3.74% were de-earmarked a few biennia ago. Program funding would shift to be prevent impacting GF.
Revise 9-1-1 fund distributions	Fund shifts among PSAPs	A recent audit pointed out a "quirk" in the fund distribution to the various PSAPs.
Provide authority to collect 9-1-1 program information from PSAPs.	No Impact	A recent audit asserted the State needs authority to collect programmatic information from the PSAPs.
Clarify 911 surcharges on Prepaid Wireless Carriers	Revenue Increase	Provide a method for prepaid wireless carriers to access and remit 9-1-1 program surcharges.
Breach Notification	Potentially Significant	Extend private sector breach notification requirement to government.
Background Checks for Certain IT Staff	Minor	Require background checks for IT professionals in "trusted" positions
